

## Cumulative Index 1989

### Volume 33

- 
- January** GERIATRIC DENTISTRY, pages 1-131  
**April** ESTHETIC DENTISTRY, pages 133-341  
**July** PROVISIONAL RESTORATIONS, pages 343-535  
**October** OSSEointegration, pages 537-909
- 

Note: Page numbers of article titles are in boldface type.

- Abrasion prevention, 84  
Abrasion resistance of porcelain laminates, 304  
Abrasives, prophylactic, 328  
Absorption, drugs, 60-61  
Abutment heads, for Integral implant, 795  
Abutment screws, bent, 857, 860, 861  
  fractured, 57  
Abutments, cemented, for fixed prosthetics, 800-801, 875-876  
  indications for, 873  
  gingival obscuration of, 468  
for Integral implant, cemented fixed, 800-801  
  preangled 15°, 801-802  
  removable, 795-800  
length in edentulous patient, 169  
mushroomed, 662  
nonfluted, 797-800  
preparations of, 367  
thread-in, for fixed prosthetics, 875-876  
  for fixed/detachable prosthetics and overdentures, 876-877  
  indications for, 873  
wrought clasp arm placement and, 380  
See also *Osseointegrated implants*.
- Accident, motor vehicle, 241, 245  
Acrylic resin, anterior fixed splint, 388  
  autopolymerized, 358, 359-364, 417, 419  
color of, soft wax and, 361  
heat-cured provisional crowns, 389  
retention beads, 365, 367, 371  
in treatment complete dentures, 417, 419
- Acrylic tray construction, for stent, 499-500  
Acrylic veneering, 169  
Active therapy evaluation, 263  
Adaptation, 17  
Adaptol, 437, 438  
Adhesion of restorative materials, 288  
Adolescent patients, 172-177  
Adrenal insufficiency, signs, 55  
Age and smile line, 161-162  
Aging, 345  
  historical perspective, 19-20  
  normal, 67-68  
  premature, 20  
  as programmed change, theory of, 20-21  
  programmed versus random process, 19-22
- Alcohol, association with oral cancer, 39, 88  
folic acid deficiency and, 118  
Alドmet (methyldopa) allergy, 70-71  
Allergy, history of, 52  
  oral manifestations, 70-72  
Almore bleaching unit, 330  
Aloplastic grafts, 834, 837-841  
Altered passive eruption, 237-241  
Alveolar ridges, atrophic, 504  
Alzheimer's disease, 52  
Ameloblastoma, removal of, 401, 402  
Anemia, 55, 56, 345  
Anesthesia in bleaching, 325, 328  
Anesthetics, reactions, 52  
Anterior esthetics, 235-241, 494  
  acceptable view, 163  
  composition and arrangement, 159

- Anterior esthetics (*Continued*)  
 gender recognition, 159-161  
 incisal length, 161-164  
 lower lip harmony, 158-159  
 maxillary, 255-275  
 objectives, 157-159  
 osseointegrated implants and, 829, 831  
 papillary retention, 235-237  
 and smile line, 157-164
- Anterior fixed prosthesis, failing units of, 523-524
- Anterior fixed splint, acrylic resin, 388
- Anterior teeth, emergency replacement of, 511-513  
 finishing instruments for, 308  
 positioning of, 152-153, 371-373  
 replacement of, 496, 511-513
- Antibiotics, coverage, IMZ implant system and, 762  
 reactions, 52
- Anti-inflammatory agents, nonsteroidal (NSAIA), 71
- Antimicrobial agents, as adjunct to periodontal therapy, 86, 97, 107
- Antineoplastic agents, side effects of, 6-7
- Anxiety, about speech clarity, 351-352
- Aphthous stomatitis, 39
- Arthritis, 345
- Ascorbic acid. See *Vitamin C*.
- Aspiration of hardware, 863-866
- Aspirin, side effects of, 69
- Atrophic alveolar ridges, augmentation of, 504
- Autopolymerized acrylic resin, 359-364  
 advantages and disadvantages of, 358  
 in treatment complete dentures, 417, 419
- Baby bottle caries, 178
- Bacteremias, 89
- Ball overdenture attachment, 808-819
- Barreling-in, 466
- Basal metabolic rate, changes with age in, 110
- Behavior modification techniques, 172
- Biocompatibility of implant material, 547-549
- Biologic characteristics of restorative materials, 287
- Biomaterials, calcium phosphate, 503-504
- Bite collapse, multidisciplinary treatment, 253-259
- Bite plane, Hawley, 482, 484, 485
- Biting, lip, cheek, and tongue, osseointegrated implants and, 833-834
- Bleaching, anesthesia for, 325, 328  
 diagnosis and testing, 324  
 endemic fluorosis, 335-336  
 esthetics, 321-338
- heating units, 330
- historical perspective, 321
- hydrogen peroxide, 330
- materials and instruments, 328-332
- nonvital teeth, 325, 336-338
- operative alternatives, 325
- patient preparation, 325
- prophylaxis, 325
- temperature control, 331-332
- thermocatalytic technique, 332-335
- tooth discolorations, 322-324
- treatment plan, 324
- walking period, 332
- Bleeding and clotting disorders, 54
- Blood pressure, auscultatory gap in hypertension patients, 56
- monitoring, 56
- Body composition, changes with age, 110
- Bonding agents for, 289
- orthodontic appliances, 185  
 simulating, 259, 261
- Bone, alveolar, changes with age, 92  
 available, loads, fixture angulation and, 842, 848, 849, 850  
 photomicrograph, 93, 94  
 skeletal, 115
- Bone density, changes with age, 110
- Bone dimensions, analysis of, before IMZ system implant, 747  
 residual, measurement of, 748-750
- Bone esthetics, 265-270
- Bone graft, osseointegrated implants and, 834  
 treatment planning for, 610-614
- Bone loss, 105  
 alveolar, 115
- Bone plate, mandibular staple, 502-504
- Border extension, with modeling plastic, 417, 418-419
- Bracing rms, lingual, 391, 392
- Brackets, maxillary, 249  
 removal of, 494
- Bränemark implant, 701-730  
 long-term follow up of, 542-543  
 mucoperiosteal health conditions around, 545-547  
 multicenter studies of, 541-542  
 in partially edentulous jaws, 543-545
- Bränemark technique for jaw reconstruction, 165-167, 505-506
- Bridges, 87  
 fixed, insertion of, 779-781
- Bridgework, fixed removable, IMZ implants with, 753
- Bruxing, osseointegrated implants and, 834, 835, 857, 863
- Buccal retentive arms, 389, 391, 392  
 for short-term interim replacement, 380
- Bullet-shaped spheroidal pontic, 473

- Calcitek implant, results of, 541  
 Calcium, dietary needs of elderly and, 117  
 Calcium balance, 115  
 Calcium phosphate biomaterials, 503-504  
 Calories, dietary needs of elderly, 115  
 Cancer, oral, predisposing behaviors with, 39-40  
 postsurgical defects and, 446-451  
 prevention of, 87-88  
 sex differences and, 39  
 warning signs of, 88  
 Cantidiasis, secondary to xerostomia, 78-79  
 use of broad-spectrum antibiotics for, 39  
 Canine platform, 485  
 Cantilevered fixed provisional restorations, 374  
 Cantilevers, lips and, 829-830, 831  
 Capped teeth, 157, 158  
 Carbide finishing instruments, 309-310  
 Carbohydrates, dietary needs of elderly, 117  
 Cardiovascular disease, 54  
 Cardiovascular disturbances, 345  
 Caries, baby bottle, 178  
 bite collapse, 253-254  
 complicated by xerostomia, 83  
 misconceived as disease of youth, 81-83  
 over-50 age group, 83  
 prevention, 81-84  
 recurrent periodontal disease and, 86  
 root surface, 83  
 association with periodontal disease, 36  
 trends in aging population, 35  
 secondary to xerostomia, 78-79  
 Case Report, allergy to nonsteroidal antiinflammatory agents, 71-72  
 Cast bar, 491  
 Cast cobalt chrome, 384, 386-387, 392-393  
 Cast glass laminates, 315  
 Casts, diagnostic, 283-284  
 mandibular, 370  
 maxillary, 370, 389  
 Cavi-jet damage to composite restorations, 317  
 Cementation, 473  
 Cemented abutments, for fixed prosthetics, 875-876  
 indications for, 873  
 Cemented fixed prosthesis, Integral, abutment for, 800-801, 802  
 Cements, glass ionomer, 290  
 Cementum, 103  
 Ceramic appliances, 188  
 Ceramics, polycrystalline, 504  
 Ceramist in esthetic consultations, 281  
 Charting procedures, 346  
 Cheek biting, osseointegrated implants and, 833-834  
 Cheilitis, 78-79  
 Cheilosis, angular, 119  
 Chemosensory changes, adjustments to, 29  
 dangers of, 28  
 effect on diet with, 111  
 extent of, 29  
 Chest pains, 54  
 Children. See *Pediatric dentistry*.  
 Chloramine-T, 107  
 Chlorhexidine digluconate, 97  
 Clamps, rubber dam, 328  
 Clasp arms, 379, 380, 389-390  
 Clear plastic appliances, 186-188  
 Clear surgical stent, 408  
 Cleft palate, adult patients with, 442-444  
 Cleidocranial dysostosis, 404  
 Clenching, osseointegrated implants and, 834, 857, 863  
 Clip retention system, prefabricated bar and, IMZ implants with, 751, 752  
 Cobalt chrome framework, for removable partial denture, 384, 386-387, 392-393  
 maxillary partially edentulous cast with, 389  
 Code on Dental Procedures and Nomenclature, 905  
 Cogentin side effects, 70  
 Combination fixed-removable reconstruction, provisional prosthodontic appliances in, 379-397  
 thread-in abutments for, 876-877  
 Complete denture esthetics, 145-155  
 historical perspective, 145-149  
 occlusal plane, 148, 149  
 See also *esthetic dentistry; Occlusal plane esthetics*.  
 Complete dentures, interim, 420  
 provisional, 415  
 treatment, 415-419  
 Composite resins, 291-292  
 classification, 291  
 finishing, 308-311  
 hybrid systems, 291  
 light-cured, 291-292  
 selection, 292  
 simplified technique, 314-315  
 traditional and microfilled, 291  
 Composites, bleaching, 332  
 finishing, 307-320  
 See also *Composite resins*.  
 Compromised patient, treatment decisions, 172-177  
 Computed tomography, dental examination with, 556-559, 560, 561  
 in dental implant surgery, 555-596  
 nonimplant potential dental uses for, 595-596  
 and osseointegration, 639-640  
 after titanium implantation, 590, 592-594  
 Computer-assisted patient evaluation (CAPE), 136  
 Congenital defects, maxillofacial prosthetics in, 435-444

- Connector bar, IMZ implants with, 751, 752  
 Consensus Development Conference, 903–904  
 Copper bands, 468  
 Core-Vent implants, results of, 540  
 Coronal screw attachment for Integral implant, 802–804  
 Cosmetic dentistry. *See Esthetic dentistry; Reconstructive surgery.*  
 Countersinking, excess, 651–652  
 Cristobalite cast, 370  
 Cross bites in pediatric patients, 179  
 Crown, cementation and, 473  
 contours, 472–473  
 establishment of adequate dimensions, 463–464  
 exaggerated height, 466  
 provisional, heat-cured acrylic resin, 389  
 short, 466  
 Crown and sleeve-coping removable partial denture, 408  
 Crown lengthening, 106–107  
 forced eruption with fiberotomy, 249–253  
 procedures, 249–253  
 Crozat appliances, 189–191  
 CRY baby, treatment decisions, 172–177  
 nonrestorative treatment, 175–177  
*See also Pediatric dentistry.*  
 Cure versus care syndrome, 9  
 Curriculum Guidelines in Geriatric Dentistry, 14  
 Cuttle disks, bleaching, 332
- Dental fluorosis, bleaching, 335–336  
 tooth discolorations, 322  
 Dental implants. *See Osseointegrated implants.*  
 Dental insurance, implantology and, 903–907  
 Dental office environment, background noise and, 46–47  
 communication aids and, 46  
 evaluation of, 24  
 exterior concerns, 44, 45  
 handles and knobs, 46  
 hazards, 88–89  
 interior concerns, 44–47, 48–49  
 lighting, 46  
 safety concerns, 47  
 seating, 46  
 toilet facilities, 46  
 Dental services, utilization of, 37–38  
 Dental stone, 437, 439  
 Dentin bonding agents, 289  
 Dentistry, geriatric, 12–13  
 defined, 11  
 education programs, 14–16  
 goals, 15
- major areas, 14, 15  
 veterans administration, 15  
 preventive, education program, 86  
 limitations, 82  
 scope, 82  
 restorative, 86–87  
 Dentists' attitudes toward elderly patients, 4  
 Dentition. *See Teeth.*

 Dentures, 87, 107  
 alveolar contours, 147  
 cleaning, 87  
 conventional interim removable partial, 401–403  
 effect on diet, 110  
 esthetic considerations. *See Esthetic dentistry.*  
 immediate interim removable partial, 403–408  
 impression procedures, 151–153, 467–469  
 interim complete, 420  
 labial mucosa and, 351  
 lip support, 152–153  
 overclosure and correction, 149–150  
 provisional complete, 415  
 provisional removable partial, 399–401  
 psychological trauma, 154  
 stability and esthetics, 151  
 training period with, 351  
 transitional removable partial and complete, 408–415  
 treatment complete, 415–419  
*See also Complete denture esthetics; Implants; Provisional restorations.*  
 Depression, 55  
 Detachable prosthetics. *See Removable entries.*  
 Diabetes, 54, 345  
 Diagnosis, and Medicare, 906–907  
 pretreatment exam in, 346  
 removable provisional use in, 516, 518–520  
 and treatment plan, 873  
 Diagnostic casts, 283–284  
 Diamond finishing instruments, 309–310  
 Diet diary, 121, 122  
 Diet modifications, effect on nutritional status of, 111  
 Dietary assessment, qualitative, 121–122  
 semiquantitative, 122–123  
 Dieticians, 122, 123  
 Digit sucking, 179, 180  
 Dip wax copings with preformed patterns, 296–297  
 Direct veneers versus laminate veneers, 303–306  
 Discoloration Questionnaire, 134–135  
 Discolorations, bleaching, 322–324, 336–338  
 dental fluorosis, 322  
 endodontic materials, 323–324

- nonvital teeth, 336-338  
 restorative materials, 324  
 tetracycline-induced, 337-338  
 trauma-induced, 323  
 types of, 322
- Disease, systemic, oral manifestations of, 88
- Disks, rubberized, 311
- Distension, neck veins, 54
- Distribution of drugs, 61
- Donor-site discomfort, major oral maxillofacial surgery and, 498
- Drifting and migration, 253-259
- Drug-disease interactions, 63
- Drug-drug interactions, 62-63
- Drug-induced illness, 63-64
- Drugs, effect on nutritional status, 112  
 in patient medical history, 345  
 See also *Pharmacotherapy*.
- Dry polishing, 310-311
- Duralay, 524
- Dyspnea, paroxysmal nocturnal, 54
- 
- Echymosis, 54
- Economic factors, effect on nutritional status, 111
- Edentulism, decreases in all age groups (1950-1985), 94  
 distribution of, 34  
 effect on nutritional status with, 113  
 mandibular, IMZ implants for, 751  
 treatment of, 704-707
- maxillary, treatment of, 707-719  
 over-55 age group, 81  
 and treatment planning for osseointegrated implants, 604-608  
 See also *Teeth, natural*.
- Edentulous patients, 166-170  
 IMZ implants in, 742, 744, 745, 751  
 phonation restoration, 351-352  
 provisional prosthodontic appliances for, 620-622, 623-626  
 stents in, with radio-opaque markers, 564-574, 575, 576  
 See also *Partially edentulous patient*.
- Effective dose (ED), defined, 69
- Elastomeric impression, 394
- Elderly population, attitudes toward dental disease, 4  
 dental care utilization of, 14, 86  
 fear of dental care in, 17  
 growth of, 1, 33
- Electrosurgery, 468
- Embrasure space, short crowns and, 466
- Emergency removable provisional prostheses, 511-513
- Emotional problems, 344  
 impression taking and, 346  
 See also *Psychological concerns*.
- Emotional stability, periodontal treatment and, 105  
 See also *Mental health*.
- Emotionally disturbed children, 179-181
- Enamel, defects in, 179  
 reactivity, 288
- Endemic fluorosis, 328
- Endocrine disorders, 345
- Endosteal implants, 505-508
